

## I've Seen This Face Before

Somewhere in the darkness  
In the drizzle  
As the lights shine in the distance  
Traffic taking people home  
To where they're safe again

Tonight - this knife; my favourite friend

A dog barks in a garden  
See a silhouette - a shape moves in a kitchen  
It seems to be so far beyond me now  
My face is wet

Tonight - this knife; my favourite friend

As I fall, I've seen this face before  
I see it all too late  
This night is cold  
I think I'll leave it all for somewhere warm and safe
