

Sigh Your Life Away

Now everyone you love has passed away
Can you believe in life again?
You're stumbling in the dark
You're on the brink
You've lost your friends
You've lost your way

Somewhere in the world tonight
A star is waiting just for you
In your darkest times you'll see it shine
It's light will guide you through the gloom

You've locked yourself away inside your brain
You haven't left the house for days
When once you were a part of everything
Now you sigh your life away

Somewhere in the world tonight
A star is waiting just for you
In your darkest times you'll see it shine
It's light will guide you through the gloom

Don't go thinking that your life is over
