

## The Love In Me

I never thought I would feel this  
I thought I could keep my distance  
But sometimes the things we need  
Are forced our way - we have no say

Just when I least expected  
I'm out of my depth, I'm sinking  
If drowning can be like this  
I never want to breathe again

'Cause there's enough love in me  
To last us forever  
There's enough love in me  
To keep us together  
There's enough love in me  
To carry us over  
There's enough love in me  
It's making us stronger

I'd been on my own for so long  
Just doing my own thing - headstrong  
My heart was preserved  
And safe from everything I was scared to be

And, if you'd tried to tell me I'd feel like this  
I wouldn't believe it  
Has everything I've known been so wrong?
