

The Real Thing

I'm on the bus, and I'm in love
And it's the real thing
It seems like more than just a week
'Cause it's the real thing

I hope she's feeling the way that I do

So, leave the papers on the floor
'Cause it's the real thing
My heart's not lonely any more
This is the real thing

I've not been sleeping, and I'm off my food

Do you ever get the feeling you're living life in deja vu?

"Dear Diary, tonight he asked me if I'd marry him
HE'S TOO INTENSE!!"

I'm on the bus, and I'm in love
And it's the real thing
It seems like more than just a week
'Cause it's the real thing

So, leave the papers on the floor
'Cause it's the real thing
My heart's not lonely any more
This is the real thing

Forget my friends, my family
This is the real thing
I know they'll just make fun of me
But it's the real thing
